Now that no more filth can be dis posed of there, the question that hundreds of people are asking is: "What will we do with our garbage? W cannot run the risk of living with the dirt piled at the rear of our residences. We want some place to put it, and as there is none, the city council should take the matter in hand immedi ately and provide a dumping ground.

Whether or not any immediate ac tion will be taken by the city fathers is not known, but Dr. Ogden states that he will call the attention of the ground and do all within his power to have one secured. It is an undisputed fact that there is not a city of the size of East Liverpool in the country that is not provided with a rubbish dump. It is a feature that is absolutely necessary for the proper protection of the people against disease and steps will be demanded for that

When the question is placed before the council the body will likely be puzzled over a location. There is seemingly no place within the limits of the city, only over the river bank, that could be secured and considering the danger to people living along the shores it does not seem fair to determine upon locating the dump a any spot where the awful stench and germ-generating filth will come in con-

BABY'S SLEEPING ROOM WAS ALL ON FIRE

A Mother Discovers a Blaze in Time To Save a Little One's Life.

A tragedy was narrowly averted at the home of Henry Pyles, West Secstreet, last Saturday evening shortly after the supper hour, and in there is another evidence of the intervention of a fate or Providence that controls the mysteries of life and death. Mrs. Pyles went into one of the rooms of the house where her three months old infant was sleeping She lighted the lamp and threw the match, as she thought, into the grate. It fell on the carpet, however, and ig nited. Mrs. Pyles soon left the room

The blaze burned briskly and com municated with the covering of a sew ing machine. The room became filled with a dense and choking smoke and when Mrs. Pyles reentered she was astounded at its condition. Without a moment's hesitation she rushed to her child, which, though safe for the moment from the flames, had been breath ing the suffocating fumes for several minutes.

The room was so filled with smoke that the light from the lamp was obscured and in the semi-darkness condition presented looked extremely dangerous, but Mrs. Pyles did not hesitate on her mission of rescue. She carried the child to another room and hugged it to her heart in her relief in finding that it still lived. The little one will apparently suffer no evil effects from its experience, and today is in excellent health.

The blaze ruined the carpet and badly damaged the sewing machine be-

By the Candidates and Their Friends to Win One of the Fine Prizes.

HOW THE VOTES NOW STAND

By 6 o'clock this evening, when the special ballot published in Saturday's News Review ceases to be valid, there will be such an influx of coupons in the News Review office as will doubtless be a revelation to those who have entered the contest for the European and summer resort trips.

It will be noted by the list given below that the number of contestants entered in the race was materially lengthened by the coupons received at his office yesterday, and from what has been reported of the activity of certain of the candidates and their friends, it is apparent that the bunches of special coupons, cut from the paper of Saturday, and which are being received and counted today, will be unexpectedly large.

Already the collection of coupons and the voting of them is going on in very section of the city and in towns in the vicinity. The readers of the News Review realize that the prizes to be given by this paper next summer are something which it will repay trouble and effort to win. The trouble is slight, and when it is considered that your vote may be just the one your friend may need in order to win, of course your are going to save it and vote it.

Each special coupon of Saturday last, if received at this office before 6 o'clock tonight, will count as 50 votes for the person balloted for. It will be worthless after that hour. The ballots now running in the paper, Series A, count as one vote each. They will count up fast if you save your own oupons and get your friends to save them for you.

If you are not a regular subscriber nd have not read the terms of splendid offer, look on page 4 of this issue for particulars.

RAILROAD COMPANY

Has Forbidden the Use of Its Grounds and Dirt Is Now Piling Up.

BIG PROBLEM FOR THE CITY

The sanitary condition of East Liver pool is assuming an alarming state and unless some action is taken by the proper authorities much disease will surely result.

When the attention of Health Officer was called to the violations taking place along the river front from the foot of Broadway to Union street, he immediately communicated with an official of the Cleveland & Pittsburg railroad, it being the railroad company's ground upon which nuisance was being committed, and received assurance that the dumping of garbage on that spot would be dis It seems that this dump was the only one in the city that was the case be secured. She did not as to policy holders, \$168,329,213.74. the injury to the head, the left arm being used and that permission was granted for that purpose.

Now that no more filth can be disposed of there, the question that hun dreds of people are asking is: "What will we do with our garbage? We cannot run the risk of living with the dirt piled at the rear of our residences. We want some place to put it, and as there is none, the city council should take the matter in hand immediately and provide a dumping ground.

Whether or not any immediate ac tion will be taken by the city fathers is not known, but Dr. Ogden states that he will call the attention of the members to the dire necessity of a ground and do all within his power to have one secured. It is an undisputed fact that there is not a city of the size of East Liverpool in the country that is not provided with a rubbish dump. It is a feature that is absolutely necessary for the proper protection of the people against disease and steps will be demanded for that end in this city.

When the question is placed before the council the body will likely be puzzled over a location. There is mingly no place within the limits of the city, only over the river bank, that could be secured and considering the danger to people living along the shores it does not seem fair to determine upon locating the dump at any spot where the awful stench and germ-generating filth will come in con-

tact with any person. Since the warning of the board of health was made through the News Review, that body, especially the health officer and sanitary policeman. have been besieged continuously by men wanting to know where they can have their garbage disposed of and the only answer than can be given is: Just let your garbage barrel and back vard filth stay where it is, or else bury it. There is no place in the city that we have any authority to give you permission to dump it on, and until some action is taken by council you must take care of it as best you can."

Of course the garbage furnace continues in operation, but there is a vast amount of refuse that cannot be disposed of by it, and the problem what to do with it grows more serious all the time.

Best of job work at the News Review office.

LARGEST CIRCULATION.

The Evening News Review has a larger paid circulation than both the other East Liver- 3 pool dailies put together. Neither of those papers has attempted to dispute this fact. And neither of them dares to make public Its circulation figures or to accept the News Review's challenge to let a committee of business men see their books and find how much of their boasted patronage is real and how much mythical. Men who advertise can draw their own conclusions as to where advertising is most profitable.

Enraged beyond self-composure a woman giving her name as Mrs. Knapp, and her home, a shantyboat noored a short distance below Market street, appeared at the city hall late yesterday afternoon and after being shown Mayor Davidson's sanctum started a tirade the like of which was never before heard during the chief executive's regime

Her loud talk was listened to for several minutes and being wrought terest and dividends paid stockholdcommanded the irate woman to depart. She complied with the request and went directly to the office of Squire H. P. McCarron. The justice listened to her story, which was about as follows:

"This man Funkhouser has threatened my life. He goes crazy when he is drunk and the other day he came to my house, and standing on the out side threw heavy stones at the boat, many of them narrowly missing me If any of them had struck me I would have been killed instantly. Though they were aimed at me I escaped, but my boat suffered. The windows were broken and the side of the boat was damaged in several places."

She was told that Funkhouser could be placed under a peace bond upon producing a part of the money to se cure the costs. A warrant was issued for the man's arrest.

Number of Contestants For the News Review Free Trips Growing Rapidly.

GREAT INTEREST IS SHOWN

the Candidates and Their Friends to Win One of the Fine Prizes.

HOW THE VOTES NOW STAND

By 6 o'clock this evening, when the special ballot published in Saturday's News Review ceases to be valid, there will be such an influx of coupons in the News Review office as will doubtless be a revelation to those who have entered the contest for the European and summer resort trips.

It will be noted by the list given below that the number of contestants entered in the race was materially engthened by the coupons received at his office vesterday, and from what has been reported of the activity of ertain of the candidates and their friends, it is apparent that the bunches of special coupons, cut from the paper of Saturday, and which are being received and counted today, will be unxpectedly large.

Already the collection of coupons and the voting of them is going on in very section of the city and in towns in the vicinity. The readers of the News Review realize that the prizes to be given by this paper next summer are comething which it will repay trouble and effort to win. The trouble is slight, and when it is considered that our vote may be just the one your friend may need in order to win, of course your are going to save it and vote it.

Each special coupon of Saturday last, if received at this office before 6 o'clock tonight, will count as 50 votes for the person balloted for. It will be worthless after that hour. The ballots now running in the paper, Series A, count as one vote each. They will count up fast if you save your own oupons and get your friends to save hem for you.

If you are not a regular subscriber and have not read the terms of the splendid offer, look on page 4 of this ssue for particulars.

The following is the present status of the voting:

GOLD ENCRUSTED WARE.

The following method of making gold encrusted ware is given by an authority on the subject: After the plate has been completed as far as painting and glazing goes-and this applies whether the porcelain be underglaze or overglaze-a coating, usually of shellac dissolved in alcohol, is laid over those portions of the plate which are not to be etched. The parts of the plate which have been already entirely finished, as well as the parts which are afterwards to receive the gold coating, are thus protected from acid action. The plate is then placed in a chamber full of the fumes of nitric acid. This acid bites into the plate wherever the latter is not covered with the shellac

In actual practice it is found necessary to do this etching by successive steps. As soon as a slight depression has been made by the acid in the unsides of the slight incline produced by the acid action, otherwise the liquid will eat into the china sideways as well as downwards and will undermine the upper portion of the plate. When this process has been repeated sufficiently long, the plate is removed and rinsed. The portion of the design which has been left in relief by the acid and which is to receive the iacrustation is now covered with the gold.

News and Notes About The Potteries

The following method of making gold encrusted ware is given by an authority on the subject: After the plate has been completed as far as painting and glazing goes-and this applies whether the porcelain be underglaze or overglaze-a coating, usually of shellac dissolved in alcohol, is laid over those portions of the plate which are not to be etched. The parts of the plate which have been already entirely finished, as well as the parts gold coating, are thus protected from The plate is then placed in a chamber full of the fumes of nitric acid. This acid bites into the plate wherever the latter is not covered with the shellac

In actual practice it is found necessary to do this etching by successive steps. As soon as a slight depression has been made by the acid in the uncovered parts of the plate, the porcesides of the slight incline produced by the acid action, otherwise the liquid will eat into the china sideways as well as downwards and will undermine the upper portion of the plate. and rinsed. The portion of the design which has been left in relief by the acid and which is to receive the incrustation is now covered with the gold.

Trenton, March 17.-Now that the been called for tonight for the purpose ble, in spite of the fact that the mcn had previously taken the stand not to gssume the responsibility for "dunted' ware any longer.

At the present time "dunts" occurring in the ware have comparatively been reduced and the question is whether the pressers, who are no longer suffering losses, will vote according to principle or upon purely personal motives.

The conference between the manufacturers and the committee representing the men Friday night, which was headed by President Hughes and Vice President Hutchins, lasted until midnight. The only thing accomplished was the receipt of a proposition from the bosses to do certain things in rewill accept. The manufacturers, notwithstanding the fact that they decline ity for "dunts" in the ware, admit that the former are not responsible for the losses and that they result from conditions over which neither side has any control

According to this statement, the men hold that the manufacturers are as much to blame as they are, and sing. assert that they should share at least part of the responsibility. Young women may avoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in the use of Lydia E. Pinkham's Vegetable Compound. "Dear Mrs. Pinkham: - I feel it my duty to tell all young women

how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months. "I recommend it to all young women who suffer from female weak-

ness." - Miss Alma Pratt, Holly, Mich.

FREE MEDICAL ADVICE TO YOUNG GIRLS. All young girls at this period of life are earnestly invited to write Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women; her advice is freely and cheerfully given, and her address is Lynn, Mass. Judging from the letters she is receiving from so many young girls Mrs.

Pinkham is inclined to the belief that our girls are pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries. Nothing is allowed to interfere with studies, the girl must be pushed to the front and graduated with honor; often physical collapse follows, and it takes years to recover the lost vitality,—often it is never recovered. A Young Chicago Girl Saved from Despair.

"DEAR MRS. PINKHAM: - I wish to thank you for the help and benefit I have received through the use of Lydia E. Pinkham's Vegetable Compound and Liver Pills. When I was about seventee years old I suddenly seemed to lose my usual goo health and vitality. Father said I studied to

hard, but the doctor thought different an prescribed tonics, which I took by the quart without relief. Reading one day in the paper of Mrs. Pinkham's great cures, and finding the symptoms described answered mine, I decided I would give Lydia E. Pinkham's Vegetable Compound a trial. I did not say a word to the doctor; I bought it myself, and took it according to directions regularly for two months, and I found that I gradually improved, and that all pains left me, and I was my old self once more. — LILLIE E. SINCLAIR, * 17 E. 22d St., Chicago Ill."

Lydia E. Pinkham's Vegetable Compound is the one sure remto be relied upon at this important period in a young g life; with it she can go through with courage and safety the work she must accomplish, and fortify her physical well being so that her future life may be insured against sickness and suffering.

No Sleep for Weeks Nervous, Weak.

Surgical Operation Wrecked My Nerves.

Dr. Miles' Nervine Restored My Health.

"A few years ago I had to submit to a surgical operation which caused me severe spinal trouble. After treatment I could not gain strength because of extreme nervousness. I took everything I could hear of that was supposed to be good for my trouble but all in vain. I had not had a night's sleep in weeks, when one day one of your circulars was thrown into our yard and after reading what your Nervine had done for others, I resolved to try it. The second night after taking it I slept soundly for the first time in many months and after taking a few bottles I was completely cured. FREE MEDICAL ADVICE TO YOUNG GIRLS. All young girls at this period of life are earnestly invited to write Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women; her advice is freely and cheerfully given, and her address is Lynn, Mass.

Judging from the letters she is receiving from so many young girls Mrs. Pinkham is inclined to the belief that our girls are pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries. Nothing is allowed to interfere with studies, the girl must be pushed to the front and graduated with honor; often physical collapse follows, and it takes years to recover the lost vitality,—often it is never recovered.

A Young Chicago Girl Saved from Despair. "DEAR MRS. PINKHAM: - I wish to thank you for the help and benefit I have received through the use of Lydia E. Pinkham's Vegetable Compound and Liver Pills. When I was about seventee years old I suddenly seemed to lose my usual goo

health and vitality. Father said I studied to hard, but the doctor thought different an prescribed tonics, which I took by the quart without relief. Reading one day in the paper of Mrs. Pinkham's great cures, and finding the symptoms described answered mine, I decided I would give Lydia E. Pinkham's Vegetable Compound a trial. I did not say a word to the doctor; I bought it myself, and took it according to directions regularly for two months, and I found that I gradually improved, and that all pains left me, and I was my old self once more. - LILLIE E. SINCLAIR, 17 E. 22d St., Chicago Ill."

Lydia E. Pinkham's Vegetable Compound is the one sure remedy to be relied upon at this important period in a young girl's life; with it she can go through with courage and safety the work she must accomplish, and fortify her physical well being so that her future life may be insured against sickness and suffering. \$5000 FORFELY if we cannot forthwith produce the original letters and signatures of will prove their absolute genuineness.

Tired

No Sleep for Weeks Nervous. Weak.

Surgical Operation Wrecked My Nerves.

Dr. Miles' Nervine Restored My Health.

"A few years ago I had to submit to a suigical operation which caused me severe spinal trouble. After treatment I could not gain strength because of extreme nervousness. I everything I could hear of that was supposed to be good for my trouble but all in vain. I had not had a night's sleep in weeks, when one day one of your circulars was thrown into our yard and after reading what your Nervine had done for others, I rewhat your Nervine had done for others, I resolved to try it. The second night after taking it I slept soundly for the first time in many months and after taking a few bottles I was completely cured. I also used the Nerve Plaster for backache with very gratifying results. I shall always be grateful for the benefits received from Dr. Miles' Restorative Remedies."—Mrs. C. W. Beaman, Savannah Mo.

vannah, Mo.

"I wish to thank you for the good your medicine has done me. It has almost worked wonders in my case. I was subject to nervous headaches for a period of thirty years. I had doctored with several doctors and had taken a number of different kinds of patent medicines, all to no avail. I was discouraged for I could not get permanent relief. At last I began a trial of Dr. Miles' Restorative Nervine and Nerve and Liver Pills. I am now completely cured and words cannot express my thankfulness to you and your medicine. If any one wishesto write to me personally I will gladly answer their letters."—J. W. Brant, Ingrahm, Ills.

the paper of Mrs. Pinkham's great cures, and finding the symptoms described answered mine, I decided I would give Lydia E. Pinkham's Vegetable Compound a trial. I did not say a word to the doctor; I bought it myself, and took it according to directions regularly for two months, and I found that I gradually improved, and that all pains left me, and I was my old self once more. — LILLIE E. SINCLAIR, * 17 E. 22d St., Chicago Ill.

Lydia E. Pinkham's Vegetable Compound is the one sure remedy to be relied upon at this important period in a young girl's life; with it she can go through with courage and safety the work she must accomplish, and fortify her physical well being so that her future life may be insured against sickness and suffering.

Gorman is said to be formulating a program of Democratic campaign is- where she had a number of relatives sues to be brought to the front in living 1904. The man who envies him his task must be mightly fond of hard work. The senator's predicament reminds one of that of the old negro died at 1:30 this morning at his home cook, who, on being told that company on Second street after a short illness that she must make an apology, asked: be learned this afternoon "'Deed, missis, and how can I make a 'pology wid no sugar, no eggs, no butter, no nuffin to make it of?"

Why should Democratic senators op pose the Panama canal treaty? Great er Democrats than any of them have been strenuous and consistent advocates of the very measure that the Republicans now propose and will pass. It is the modern Democrat's nature to block progress, if he can. Fortunately, that is not a popular American sentiment.

There are few parts of the earth where St. Patrick's day is celebrated with more zeal and earnestness than in the "land of the free and the home of the brave," probably because more true-hearted, live Irishmen are found here than anywhere else.

OBITUARY

Michael McGevor.

Michael McGevor died at his home on Lisbon road yesterday afternoon shortly after 5 o'clock from rheumatism and heart trouble after an illness of about two weeks. The announcement yesterday that he was in a criti cal condition was a painful surprise to most of those in his wide circle of friends. His illness was encouraged by mental worry caused by the damage to his home and property from the landslide of a few weeks ago. For the past seven years, with but few interruptions, he was employed in the slip house at the D. E. McNicol pottery and he was known over the city as a skiiled and reliable workman. He was a good, substantial citizen and highly respected by the entire community.

Mr. McGevor was a member of the local order of the Catholic Mutual Benefit association and of St. Aloysius' church. A wife and several brothers are the near surviving relatives. The funeral services will be held at St. Aloysius' church Thursday morning at 9 o'clock and the interment will be made in St. Aloysius' cemetery.

James F. Dugan.

James F. Dugan, aged 47 years, died ing, after a brief illness of congestion fringed on the injunction." of the lungs. He leaves a wife and were held this morning at 9 o'clock from the Church of the Immaculate Conception, Rev. Father Crotty officiating, assisted by Father Smythe, of East Liverpool. Interment was made in the St. Elizabeth cemetery.

Samuel C. Taylor, aged 81 years formerly a resident of this county, died Saturday at the home of his son, Walter Taylor, in St. Louis. Why should Democratic senators oppose the Panama canal treaty? Greater Democrats than any of them have been strenuous and consistent advocates of the very measure that the Republicans now propose and will pass. It is the modern Democrat's nature to block progress, if he can. Fortunately, that is not a popular American sentiment.

OBITUARY

Michael McGevor. Michael McGevor died at his home on Lisbon road yesterday afternoon shortly after 5 o'clock from rheuma tism and heart trouble after an illness of about two weeks. The announce ment vesterday that he was in a critical condition was a painful surprise to most of those in his wide circle of friends. His illness was encouraged by mental worry caused by the damage to his home and property from the landslide of a few weeks ago. For the past seven years, with but few interruptions, he was employed in the slip house at the D. E. McNicol pottery and he was known over the city as a skilled and reliable workman. He was a good, substantial citizen and highly respected by the entire community.

Mr. McGevor was a member of the local order of the Catholic Mutual Benefit association and of St. Alovsius' church. A wife and several brothers are the near surviving relatives. The funeral services will be held at St. Aloysius' church Thursday morning at 9 o'clock and the interment will be made in St. Aloysius' cemetery.

STEAMER BRINGS PARTICULARS.

Islands Virtually Washed Away, the Soil Having Vanished, and Cocoanut Trees Are Killed-Bodies of Natives Found Tied to Trees.

San Francisco, March 17.-The steamer Mariposa arrived from Australia, bringing additional news of the typhoon and tidal wave at the Pearl island group the middle of January. The French government has investigated the disaster and found that between 500 and 600 islanders perished during the storm. After the wind had subsided and the waters had receded the bodies of drowned natives were found tied to trees about the

Hikuera, one of the islands visited by the deluge, was the least able to withstand its force, as its highest place is 12 feet above the sea. The residents flocked to the heights and sought safety by binding themselves to the rocks and trees. There they remained for the three or four days ir which the storm swept over the dreadful scene.

The islands of Hao Makokau and Hikuera are virtually washed away as they are at present little above the sea level and are destitute of vege tation. On them man cannot subsisas the soil has vanished and the cocoa nut trees are all dead.

The French government of th islands did all in its power to allevi ate the suffering. Charles Revel colonial inspector of the first class now at Tahiti, made a tour of inspec tion of the Tuamotu group in the Italian man-of-war Calabria, which ren dered all possible assistance toward aiding the sufferers. In his repor M. Revel says:

"In approaching Katui we saw the Zelee, the French man-of-war. W exchanged signals and we came closenough so that I could be put or board."

Commander Richard at first collect ed indigents of Hikuera and ha taken them to Raiora. He had visite Anaa, Reitoru, Merokau, Motutaunga Tepoto, Tuanake and Katii.

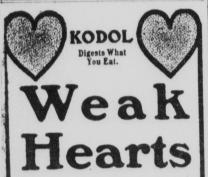

Hikuera had been devastated. had 400 deaths. It was a complet disaster. The sanitary condition was however, good, and there was no fea of disease.

Commander Richard, of the Zele made a tour of the islands. He de scribes the devastation as comple in the island of Rarioa.

Three-fourths of the cocoanut tree have been destroyed, houses have been cast down, the walls of the Cathol church and the prison were swel away and 12 inmates were killed. Amann three persons were killed the cyclone.

Don't fool with a cold; no one ca tell what the end may be. Pneumonia catarrh, chronic bronchitis and co sumption invariably result from ne lected colds. Islands Virtually Washed Away, the Sell Having Vanished, and Cocoanut Trees Are Killed-Bodies of Natives Found Tied to Trees.

San Francisco, March 17.-The steamer Mariposa arrived from Australia, bringing additional news of the typhoon and tidal wave at the Pearl island group the middle of January. The French government has investigated the disaster and found that between 500 and 600 islanders perished during the storm. After the wind had subsided and the waters had receded the bodies of drowned natives were found tied to trees about the

Hikuera, one of the islands visited by the deluge, was the least able to withstand its force, as its highest place is 12 feet above the sea. The residents flocked to the heights and sought safety by binding themselves to the rocks and trees. There they remained for the three or four days ir which the storm swept over the dreadful scene.

The islands of Hao Makokau and Hikuera are virtually washed away, as they are at present Mttle above the sea level and are destitute of vegetation. On them man cannot subsist as the soil has vanished and the cocoanut trees are all dead.

The French government of the Islands did all in its power to alleviate the suffering. Charles Revel, colonial inspector of the first class, now at Tahiti, made a tour of inspection of the Tuamotu group in the Italian man-of-war Calabria, which rendered all possible assistance toward aiding the sufferers. In his report M. Revel says:

"In approaching Katui we saw the Zelee, the French man-of-war. We exchanged signals and we came close enough so that I could be put on board."

Commander Richard at first collected indigents of Hikuera and had taken them to Raiora. He had visited Anas, Reitoru,, Merokau, Motutaunga, Tepoto, Tuanake and Katii.

Hikuera had been devastated. It had 400 deaths. It was a complete disaster. The sanitary condition was however, good, and there was no fea-

STEAMER BRINGS PARTICULARS.

Soll Having Vanished, and Cocoanut Trees Are Killed-Bodies of Natives Found Tied to Trees.

San Francisco, March 17.-The steamer Mariposa arrived from Australia, bringing additional news of the typhoon and tidal wave at the Pearl island group the middle of January. The French government has investigated the disaster and found that between 500 and 600 islanders perished during the storm. After the wind had subsided and the waters had receded the bodies of drowned natives were found tied to trees about the

Hikuera, one of the islands visited by the deluge, was the least able to withstand its force, as its highest place is 12 feet above the sea. The residents flocked to the heights and sought safety by binding themselves to the rocks and trees. There they remained for the three or four days ir which the storm swept over the dreadful scene.

The islands of Hao Makokau and Hikuera are virtually washed away, as they are at present Mttle above the sea level and are destitute of vegetation. On them man cannot subsist as the soil has vanished and the cocoanut trees are all dead.

The French government of the Islands did all in its power to alleviate the suffering. Charles Revel, colonial inspector of the first class, now at Tahiti, made a tour of inspection of the Tuamotu group in the Italian man-of-war Calabria, which rendered all possible assistance toward aiding the sufferers. In his report M. Revel says:

"In approaching Katui we saw the Zelee, the French man-of-war. We exchanged signals and we came close enough so that I could be put on board.

Commander Richard at first collected indigents of Hikuera and had taken them to Raiora. He had visited Anaa, Reitoru,, Merokau, Motutaunga, Tepoto, Tuanake and Katii.

Hikuera had been devastated. It had 400 deaths. It was a complete disaster. The sanitary condition was however, good, and there was no fear of disease

Commander Richard, of the Zelee, made a tour of the islands. He describes the devastation as complete in the island of Rarioa.

Three-fourths of the cocoanut trees have been destroyed, houses have been cast down, the walls of the Catholic church and the prison were swept away and 12 inmates were killed. At Amann three persons were killed by the cyclone.

Don't fool with a cold; no one can tell what the end may be. Pneumonia catarrh, chronic bronchitis and consumption invariably result from neg lected colds. Nothing can be compar ed with Chamberlain's Cough Remedy as a quick cure for colds and influenza and by its use these diseases may be avoided. For sale by Alvin H. Bulger.

No trouble to prepare quick break fasts if you have Mrs. Austin's famous Pancake flour. Ready in a moment.

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceindigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stoma ouffing it up against the heart. This and in the course of time that delicate but vital organ becomes diseased.

Digests What You Eat

Mrs. Loring Nichols of Penn Yan, N. Y., writes: After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and It gave me immediate relief. After using a few bottles I am cured.

Kodol cures indigestion, dyspepsia and all stomach disorders, and gives the heart a full, free and untrammeled action.

LEVEES REPORTED BREAKING

Efforts to Stop the Flow Apparently Useless and Heavy Loss May Result.

Memphis, Tenn., March 17 .- The full force of the flood in the Mississippi river is being felt in the south and breaking levees along the course of the river are causing much more uneasiness. A report was received here to the effect that the St. Francis levee at Trice's landing, two miles north of Holly Bush, Ark., had broken and that the water is flowing over the embankment in a stream almost six inches deep and three-quarters of a mile wide. Every effort is being made to sack the levee and stop the flow, but as the river is rising rapidly it is feared all efforts will be in vain and heavy damage may result from the onrushing waters.

Reports from Natchez also tell of gap two miles wide being cut in the 15-foot embankment of the Texas Pa cific road at Bougere, 30 miles below Vidalia, Miss. This gap was followed by a break in the lower Bougere which lapped the railroad embankment on the south.

The situation is critical at Pecan Point, Fogleman's landing and St Thomas, Ark., and a break may occur

LEVEES REPORTED BREAKING

Efforts to Stop the Flow Apparently Useless and Heavy Loss May Result.

Memphis, Tenn., March 17 .- The full force of the flood in the Missis sippi river is being felt in the south and breaking levees along the course of the river are causing much more received vereasiness. A report was received here to the effect that the St. Francis levee at Trice's landing, two miles north of Holly Bush, Ark., had broken and that the water is flowing over the embankment in a stream almost six inches deep and three-quarters of a mile wide. Every effort is being made to sack the levee and stop the flow, but as the river is rising rapidly it is feared all efforts will be in vain and heavy damage may result from the onrushing waters.

Reports from Natchez also tell of a gap two miles wide being cut in the 15-foot embankment of the Texas Pacific road at Bougere, 30 miles below Vidalia, Miss. This gap was followed by a break in the lower Bougere which lapped the railroad embank ment on the south.

The situation is critical at Pecan Point, Fogleman's landing and St. Thomas, Ark., and a break may occur

BIG PROBLEM FOR THE CITY

The sanitary condition of East Liver pool is assuming an alarming state. and unless some action is taken by the proper authorities much disease will surely result.

When the attention of Health Officer Ogden was called to the violations taking place along the river front from the foot of Broadway to Union street, he immediately communicated with an official of the Cleveland & company's ground upon which the nuisance was being committed, and received assurance that the dumping of had been complaining for months, he Their total liabilities are \$1,867,494. home on Eighth street, near the brewgarbage on that spot would be dis-It seems that this dump was the only one in the city that was being used and that permission was granted for that purpose

Now that no more filth can be dis posed of there, the question that hun dreds of people are asking is: "What will we do with our garbage? W cannot run the risk of living with the dirt piled at the rear of our residences. We want some place to put it, and as there is none, the city council should take the matter in hand immediately and provide a dumping ground."

Whether or not any immediate ac tion will be taken by the city fathers is not known, but Dr. Ogden states that he will call the attention of the members to the dire necessity of a have one secured. It is an undisputed fact that there is not a city of the that is not provided with a rubbish dump. LARGEST CIRCULATION.

The Evening News Review has a larger paid circulation than both the other East Liverpool dailies put together. Neither of those papers has attempted to dispute this fact. And neither of them dares to make public Its circulation figures or to accept the News Review's challenge to let a committee of business men see their books and find how much of their boasted patronage is real and . how much mythical. BABY'S SLEEPING ROOM WAS ALL ON FIRE

A Mother Discovers a Blaze in Time To Save a Little One's Life.

A tragedy was narrowly averted at the home of Henry Pyles, West Second street, last Saturday evening shortly after the supper hour, and in ntervention of a fate or Providence that controls the mysteries of life and the rooms of the house where her three months old infant was sleeping She lighted the lamp and threw the match, as she thought, into the grate, It fell on the carpet, however, and ig nited. Mrs. Pyles soon left the room.

The blaze burned briskly and com municated with the covering of a sew with a dense and choking smoke and when Mrs. Pyles reentered she was astounded at its condition. Without a moment's hesitation she rushed to her child, which, though safe for the moment from the flames, had been breathing the suffocating fumes for several minutes.

The room was so filled with smoke that the light from the lamp was ob scured and in the semi-darkness confinding that it still lived. The little one will apparently suffer no evil effects from its experience, and today is in excellent health

HOW THE VOTES NOW STAND

By 6 o'clock this evening, when the special ballot published in Saturday's News Review ceases to be valid, there will be such an influx of coupons in the News Review office as will doubt less be a revelation to those who have entered the contest for the European and summer resort trips.

It will be noted by the list given below that the number of contestants entered in the race was materially engthened by the coupons received at his office vesterday, and from what has been reported of the activity of certain of the candidates and their friends, it is apparent that the bunches of special coupons, cut from the paper of Saturday, and which are being received and counted today, will be un expectedly large.

Already the collection of coupons and the voting of them is going on in every section of the city and in town in the vicinity. The readers of the News Review realize that the prizes to be given by this paper next summer are something which it will repay trouble and effort to win. The trouble is slight, and when it is considered that our vote may be just the one your friend may need in order to win, of course your are going to save it and

Surgical Operation Wrecked My Nerves. Dr. Miles' Nervine Restored My Health.

"A few years ago I had to submit to a surgical "A few years ago I had to submit to a surgical operation which caused me severe spinal trouble. After treatment I could not gain strength because of extreme nervousness. I took everything I could hear of that was supposed to be good for my trouble but all in vain. I had not had a night's sleep in weeks, when one day one of your circulars was thrown into our yard and after reading what your Nervine had done for others, I resolved to try it. The second night after taking it I slept soundly for the first time in many months and after taking a few bottles many months and after taking a few bottles I was completely cured. I also used the Nerve Plaster for backache with very gratifying results. I shall always be grateful for the benefits received from Dr. Miles' Restorative Remedies."—Mrs. C. W. Beaman, Savannah Mrs.

vannah, Mo.

"I wish to thank you for the good your medicine has done me. It has almost worked wonders in my case. I was subject to nervous headaches for a period of thirty years. I had doctored with several doctors and had taken a number of different kinds of patent medicines, all to no avail. I was discouraged for I could not get permanent relief. At last I began a trial of Dr. Miles' Restorative Nervine and Nerve and Liver Pills. I am now completely cured and words cannot express my thankfulness to you and your medicine. If any one wishes to write to me personally I will gladly answer their letters."—J. W. Brant, Ingrahm, Ills.

Why should Democratic senators oppose the Panama canal treaty? Greater Democrats than any of them have been strenuous and consistent advocates of the very measure that the Republicans now propose and will pass. It is the modern Democrat's nature to block progress, if he can Fortunately, that is not a popular American sentiment.

OBITUARY

Michael McGevor.

Michael McGevor died at his home on Lisbon road yesterday afternoon shortly after 5 o'clock from rheumatism and heart trouble after an illness of about two weeks. The announcement yesterday that he was in a critical condition was a painful surprise to most of those in his wide circle of friends. His illness was encouraged by mental worry caused by the damage to his home and property from the landslide of a few weeks ago. For the past seven years, with but few interruptions, he was employed in the slip house at the D. E. McNicol pottery and he was known over the city as a skiiled and reliable workman. He was a good, substantial citizen and highly respected by the entire community. Mr. McGevor was a member of the local order of the Catholic Mutual Benefit association and of St. Aloysius' church. A wife and several brothers are the near surviving relatives. The funeral services will be held at St. Aloysius' church Thursday morning at 9 o'clock and the interment will be made in St. Aloysius' cemetery.

ANOTHER NEW MINE UPON THE WABASH

IT PAYS TO BUY THE BEST. A Deal in Belmont County Which Involves \$150,000 Nearly Consummated.

> Bellaire, March 17 .- Another important deal is on hand in Belmont county a few days.

The Purseglove Coal Mining company have optioned their mine at Maynard to a St. Clairsville party. It is understood that its price is about \$150,000. The company has an opening on the C., L. & W. and on the Adena branch of the Wabash system. The company has between six and seven hundred acres of coal territory and considerable surface land. The price named is said to be large for this mine, but owing to its splendid loca tion, it is considered very valuable The option is for thirty days.

From what can be learned, the property is wanted by the Weaver Coal company, who are extensive opera tors, west of Bellaire, on the B. & O The Purseglove mine is less than tw years old, but is modernly equippe and has a splendid vein of coal.

There are also some rumors of ome other mines along the C., L. & W. changing hands, but they have not yet been corroborated.

Islands Virtually Washed Away, the Soil Having Vanished, and Cocoanut Trees Are Killed-Bodies of Natives Found Tied to Trees.

San Francisco, March 17.-The steamer Mariposa arrived from Australia, bringing additional news of the typhoon and tidal wave at the Pearl island group the middle of January. The French government has investigated the disaster and found that between 500 and 600 islanders perished during the storm. After the wind had subsided and the waters had receded the bodies of drowned natives were found tied to trees about the place.

Hikuera, one of the islands visited by the deluge, was the least able to withstand its force, as its highest place is 12 feet above the sea. The residents flocked to the heights and sought safety by binding themselves to the rocks and trees. There they remained for the three or four days ir which the storm swept over the dreadful scene.

The islands of Hao Makokau and Hikuera are virtually washed away, as they are at present fittle above the sea level and are destitute of vege tation. On them man cannot subsist as the soil has vanished and the cocoa nut trees are all dead.

The French government of the Islands did all in its power to alleviate the suffering. Charles Revel, colonial inspector of the first class now at Tahiti, made a tour of inspec tion of the Tuamotu group in the Ital ian man-of-war Calabria, which rendered all possible assistance toward aiding the sufferers. In his report M. Revel says:

LEVEES REPORTED BREAKING Efforts to Stop the Flow Apparently

Useless and Heavy Loss May Result.

Memphis, Tenn., March 17 .- The full force of the flood in the Missis sippi river is being felt in the south and breaking levees along the course of the river are causing much more received report was received here to the effect that the St. Francis levee at Trice's landing, two miles north of Holly Bush, Ark., had broken and that the water is flowing over the embankment in a stream almost six inches deep and three-quarters of a mile wide. Every effort is being made to sack the levee and stop the flow, but as the river is rising rapidly it is feared all efforts will be in vain and heavy damage may result from the onrushing waters.

Reports from Natchez also tell of a gap two miles wide being cut in the 15-foot embankment of the Texas Pacific road at Bougere, 30 miles below Vidalia, Miss. This gap was followed by a break in the lower Bougere which lapped the railroad embankment on the south.

The situation is critical at Pecan Point, Fogleman's landing and St. Thomas, Ark., and a break may occur
